17 **THE UNITED STATES DISTRICT COURT**  
18 **FOR THE CENTRAL DISTRICT OF CALIFORNIA**

19 MYRON SCHELLHORN,  
20 RODNEY ALLEN, and TEDDA  
21 ALLEN, as individuals and on  
22 behalf of all others similarly  
23 situated,

24 Plaintiffs,

25 vs.

26 TIMIOS, INC.,

27 Defendant.

Case No.: 2:21-cv-08661

**CLASS ACTION COMPLAINT**

**DEMAND FOR JURY TRIAL**

28 Plaintiffs (“Plaintiffs”) bring this Class Action Complaint against Timios, Inc. (“Timios” or “Defendant”), as individuals and on behalf of all others similarly situated, and allege, upon personal knowledge as to their own actions and their

1 counsels’ investigations, and upon information and belief as to all other matters, as  
2 follows:

3 **I. INTRODUCTION**

4 1. Plaintiffs bring this class action against Timios to seek damages for  
5 Plaintiffs and the class of consumers who they seek to represent, as well as other  
6 equitable relief, including, without limitation, injunctive relief designed to protect  
7 the very sensitive information of Plaintiffs and other consumers. This action arises  
8 from Timios’s failure to properly secure and safeguard personal identifiable  
9 information, including without limitation, unencrypted and unredacted names,  
10 Social Security numbers, driver’s license or state-issued identification numbers,  
11 passport numbers, tax identification numbers, military identification numbers,  
12 financial account numbers, payment card numbers and/or date of birth  
13 (collectively, “personal identifiable information” or “PII”).

14 2. Plaintiffs also allege Timios failed to provide timely, accurate and  
15 adequate notice to Plaintiffs and similarly situated Timios customers (“Class  
16 Members”) that their PII had been lost and precisely what types of information was  
17 unencrypted and in the possession of unknown third parties.

18 3. On or about October 11, 2021, Timios notified state Attorneys General  
19 and many of its customers about a widespread data breach involving sensitive PII  
20 of 74,755 individuals. Timios explained that between July 19-25, 2021, Timios  
21 allowed its network to fall victim to a “unauthorized access” that culminated in  
22 “encryption of some of its systems” (which is typically a defining characteristic of  
23 a ransomware attack) beginning on or about July 25, 2021 (the “Data Breach”).  
24 Timios’s investigation revealed its systems were accessed by unauthorized,  
25 unknown third-parties, exposing and allowing access to and acquisition of the PII  
26 detailed above.

27 4. Plaintiffs in this action were customers of Timios, and were not  
28 notified about the Data Breach until on or about October 8, 2021. Timios fails to

1 explain why it took the company over two months (from July 30, 2021, when  
2 Timios states its investigation determined that PII was accessed or acquired) to alert  
3 consumers that their sensitive PII had been exposed. As a result of this delayed  
4 response, Plaintiffs and Class Members had no idea their PII had been  
5 compromised, and that they were, and continue to be, at significant risk to identity  
6 theft and various other forms of personal, social, and financial harm.

7         5. This unencrypted, unredacted PII was compromised due to Timios's  
8 negligent and/or careless acts and omissions and the utter failure to protect  
9 consumers' sensitive data. Hackers obtained their PII because of its value in  
10 exploiting and stealing the identities of Plaintiffs and Class Members. The risk to  
11 these consumers will remain for their respective lifetimes.

12         6. Plaintiffs bring this action on behalf of all persons whose PII was  
13 compromised as a result of Timios's failure to: (i) adequately protect consumers'  
14 PII; (ii) warn consumers of its inadequate information security practices; and (iii)  
15 effectively monitor Timios's network for security vulnerabilities and incidents.  
16 Timios's conduct amounts to negligence and violates federal and state statutes.

17         7. Plaintiffs and Class Members have suffered injury as a result of  
18 Timios's conduct. These injuries include: (i) lost or diminished value of PII; (ii)  
19 out-of-pocket expenses associated with the prevention, detection, and recovery  
20 from identity theft, tax fraud, and/or unauthorized use of their PII; (iii) lost  
21 opportunity costs associated with attempting to mitigate the actual consequences  
22 of the Data Breach, including but not limited to lost time, (iv) deprivation of rights  
23 they possess under the California Unfair Competition Law (Cal. Business &  
24 Professions Code §§ 17200, *et seq.*) (v) the continued and certainly an increased  
25 risk to their PII, which remains in Timios's possession and is subject to further  
26 unauthorized disclosures so long as Timios fails to undertake appropriate and  
27 adequate measures to protect the PII. This risk will remain for the lifetimes of  
28 Plaintiffs and Class Members.

1 8. Timios disregarded the rights of Plaintiffs and Class Members by  
2 intentionally, willfully, recklessly, or at the very least negligently failing to take  
3 and implement adequate and reasonable measures to ensure that its customers' PII  
4 was safeguarded, failing to take available steps to prevent an unauthorized  
5 disclosure of data, and failing to follow applicable, required and appropriate  
6 protocols, policies and procedures regarding the encryption of data, even for  
7 internal use. As the result, the PII of Plaintiffs and Class Members was  
8 compromised through disclosure to an unknown and unauthorized third party.  
9 Plaintiffs and Class Members have a continuing interest in ensuring that their  
10 information is and remains safe, and they should be entitled to injunctive and other  
11 equitable relief.

## 12 II. PARTIES

13 9. Plaintiff Myron Schellhorn is a Citizen of Nebraska residing in  
14 Lancaster County, Nebraska. Mr. Schellhorn received Timios's *Notice of Data*  
15 *Breach*, dated October 8, 2021, shortly after that date. If Mr. Schellhorn had known  
16 that Timios would not adequately protect his PII, he would not have allowed Timios  
17 access to this sensitive and private information.

18 10. Plaintiff Rodney Lynn Allen is a Citizen of Illinois residing in Morgan  
19 County, Illinois. Mr. Allen received Timios's *Notice of Data Breach*, dated  
20 October 8, 2021, shortly after that date. If Mr. Allen had known that Timios would  
21 not adequately protect his PII, he would not have allowed Timios access to this  
22 sensitive and private information.

23 11. Plaintiff Tedda Allen is a Citizen of Illinois residing in Morgan  
24 County, Illinois. Mrs. Allen received Timios's *Notice of Data Breach*, dated  
25 October 8, 2021, shortly after that date. If Mrs. Allen had known that Timios would  
26 not adequately protect her PII, she would not have allowed Timios access to this  
27 sensitive and private information.

1           12. Defendant Timios, Inc. is a Delaware corporation with its principal  
2 place of business at 19360 Ventura Blvd., Tarzana, CA 91356.

3           13. The true names and capacities of persons or entities, whether  
4 individual, corporate, associate, or otherwise, who may be responsible for some of  
5 the claims alleged herein are currently unknown to Plaintiffs. Plaintiffs will seek  
6 leave of court to amend this complaint to reflect the true names and capacities of  
7 such other responsible parties when their identities become known.

8           14. All of Plaintiffs' claims stated herein are asserted against Timios and  
9 any of its owners, predecessors, successors, subsidiaries, agents and/or assigns.

### 10   **III. JURISDICTION AND VENUE**

11           15. This Court has subject matter and diversity jurisdiction over this  
12 action under 28 U.S.C. § 1332(d) because this is a class action wherein the amount  
13 of controversy exceeds the sum or value of \$5 million, exclusive of interest and  
14 costs, there are more than 100 members in the proposed class, and at least one other  
15 Class Member (including, for example, named Plaintiff Myron Schellhorn, a  
16 citizen of Nebraska) is a citizen of a state different from Defendant to establish  
17 minimal diversity.

18           16. The Central District of California has personal jurisdiction over  
19 Defendant named in this action because Defendant is headquartered and has its  
20 principal place of business in this District, conducts substantial business in  
21 California and this District through its headquarters, offices, and affiliates, and  
22 (upon information and belief) engaged in the conduct at issue here in this judicial  
23 district.

24           17. Venue is proper in this District under 28 U.S.C. §1391(b) because  
25 Defendant is headquartered and has its principal place of business in this District  
26 and has caused harm to Plaintiffs and Class Members through conduct in this  
27 District.

1 **IV. FACTUAL ALLEGATIONS**

2 ***Background***

3 18. Timios promises that it will protect its members’ privacy and remain  
4 in compliance with statutory privacy requirements. For example, Timios states in  
5 its Privacy Policy posted on its website that:

6 The security of your personal information is important to us. That is  
7 why we take commercially reasonable steps to make sure your  
8 personal information is protected. We will maintain commercially  
9 reasonable technical, organizational, and physical safeguards,  
10 consistent with applicable law, to protect your personal information.<sup>1</sup>

11 19. Timios also promises consumers that “Timios does not otherwise  
12 share your personal information, except as required or permitted by law,” and  
13 further promises that it “will not share your personal information with nonaffiliated  
14 third parties, except as permitted by California law.”<sup>2</sup>

15 20. Plaintiffs and the Class Members, as current and former Timios  
16 customers, relied on these promises and on this sophisticated entity to keep their  
17 sensitive PII confidential and securely maintained, to use this information for  
18 business purposes only, and to make only authorized disclosures of this  
19 information. Consumers, in general, demand security to safeguard their PII,  
20 especially when Social Security numbers and other sensitive PII is involved.

21 21. Timios had a duty to adopt reasonable measures to protect Plaintiffs’  
22 and Class Members’ PII from involuntary disclosure to third parties.

23 ***The Data Breach***

24 22. Beginning on or about October 8, 2021, Timios notified many of its  
25 customers and state Attorneys General about a widespread data breach involving

26 <sup>1</sup> Ex. 1 (Timios’s Privacy Policy, also *available at*:  
27 <https://www.timios.com/privacy-policy/> (last accessed October 29, 2021)

28 <sup>2</sup> *Id.*

1 sensitive PII of certain current and former customers.<sup>3</sup> Timios explained on or  
2 about July 25, 2021, it detected unauthorized access to certain devices in its  
3 network that encrypted some of its systems.

4 23. Through an investigation, Timios determined that the unauthorized  
5 individual or individuals had access to its systems between July 19, 2021 and July  
6 22, 2021 (i.e. unauthorized access over six (6) calendar days).<sup>4</sup> This exposed over  
7 75,000 consumers' PII to criminals.<sup>5</sup>

8 24. On July 30, 2021, an investigation commissioned by Timios  
9 determined that there was unauthorized activity on Timios's network that resulted  
10 in unauthorized third-party access to and acquisition of confidential information of  
11 Timios customers.

12 25. The confidential information that was accessed without authorization  
13 included names along with data elements including a "Social Security number,  
14 driver's license or state-issued identification number, passport number, tax  
15 identification number, military identification number, financial account number,  
16 payment card number and/or date of birth."<sup>6</sup>

17 26. On information and belief, the PII was not encrypted prior to the data  
18 breach.

19 27. Upon information and belief, the cyberattack was targeted at Timios  
20 due to its status as a major real estate, title, and escrow company that collects  
21 valuable personal, and financial data on its many customers, as well as its  
22 employees.

23  
24 \_\_\_\_\_  
25 <sup>3</sup> Ex. 2 (Timios's *Notice of Data Breach*, dated October 11, 2021, posted by the  
26 Maine Attorney General, available at:  
<https://apps.web.maine.gov/online/aeviewer/ME/40/3d523f04-a7f2-46c4-8653-51be860067b5.shtml> (last accessed October 29, 2021)

27 <sup>4</sup> *Id.*

28 <sup>5</sup> *Id.*

<sup>6</sup> *Id.*

1           28. Upon information and belief, the cyberattack was expressly designed  
2 to gain access to private and confidential data, including (among other things) the  
3 PII of Plaintiffs and the Class Members.

4           29. On or about October 8, 2021, Timios sent consumers (including  
5 Plaintiffs Schellhorn, Mr. Allen, and Mrs. Allen) a *Notice of Data Breach*,  
6 informing the recipients of the notice that their confidential data was involved, and  
7 stating:

8           We [Timios] are also taking a number of steps to help prevent something  
9 like this from occurring again. We implemented additional measures to  
10 further enhance our security protocols and are providing continued education  
11 and training to our employees. . . .

12  
13           As a precaution, we are offering a complimentary one-year membership to  
14 Experian’s IdentityWorks Credit 3B. This product helps detect possible  
15 misuse of your personal credit information and provides you with identity  
16 protection services focused on the identification and resolution of identity  
17 theft. . . .

18  
19           It is a best practice to remain vigilant by reviewing your account statements  
20 and credit reports for any unauthorized activity. As always, you should  
21 remain vigilant for incidents of fraud that may attempt to trick you into  
22 providing passwords or other information about yourself. We also  
23 encourage you to enroll in Experian IdentityWorks.<sup>7</sup>

24  
25           30. Timios admitted in the *Notice of Data Breach* and the letters to the  
26 Attorneys General that their systems were subjected to unauthorized access  
27 beginning on or about July 19, 2021, and there is no indication that the exfiltrated

---

28 <sup>7</sup> *Id.*

1 PII was retrieved from the cybercriminals who took it.

2 31. The offer of credit and identity monitoring services, Timios’s  
3 suggestion to “remain vigilant, as well as the express warning to be aware of  
4 “incidents of fraud that may attempt to trick you into providing passwords or other  
5 information about yourself” (such as unsolicited emails, spam phone calls, and  
6 other forms of fraud known as “social engineering”) is an acknowledgment by  
7 Timios that the impacted customers are subject to an imminent threat of identity  
8 theft and financial fraud.

9 32. In response to the Data Breach, Timios claims, “we implemented  
10 additional measures to further enhance our security protocols and are providing  
11 continued education and training to our employees.”<sup>8</sup> Timios admits enhanced  
12 “security protocols” were required, but there is no indication whether these steps  
13 are adequate to protect Plaintiffs’ and Class Members’ PII going forward.

14 33. Timios had obligations created by contract, industry standards,  
15 common law, and representations made to Plaintiffs and Class Members to keep  
16 their PII confidential and to protect it from unauthorized access and disclosure.

17 34. Plaintiffs and Class Members provided their PII to Timios with the  
18 reasonable expectation and mutual understanding that Timios would comply with  
19 its obligations and representations to keep such information confidential and secure  
20 from unauthorized access.

21 35. Timios failed to uphold its obligations to Plaintiffs and Members of  
22 the Class. As a result, Plaintiffs and Class Members have been significantly harmed  
23 and will be at a high risk of identity theft and financial fraud for many years to  
24 come.

25 36. Timios did not use reasonable security procedures and practices  
26 appropriate to the nature of the sensitive, unencrypted information it was  
27 maintaining, causing Plaintiffs’ and Class Members’ PII to be exposed.

---

28 <sup>8</sup> *Id.*

1           ***Securing PII and Preventing Breaches***

2           37. Timios could have prevented this Data Breach by properly encrypting  
3 or otherwise protecting their equipment and computer files containing PII.

4           38. Timios has acknowledged the sensitive and confidential nature of the  
5 PII. To be sure, collection, maintaining, and protecting PII is vital to many of  
6 Timios’s business purposes. Timios has acknowledged through conduct and  
7 statements that the misuse or inadvertent disclosure of PII can pose major privacy  
8 and financial risks to impacted individuals, and that under state law they may not  
9 disclose and must take reasonable steps to protect PII from improper release or  
10 disclosure.

11           ***The Ransomware Attack and Data Breach were Foreseeable Risks of***  
12           ***which Defendant was on Notice***

13           39. It is well known that PII, including social security numbers and  
14 financial account information in particular, is an invaluable commodity and a  
15 frequent target of hackers.

16           40. In 2019, a record 1,473 data breaches occurred, resulting in  
17 approximately 164,683,455 sensitive records being exposed, a 17% increase from  
18 2018.<sup>9</sup>

19           41. Of the 1,473 recorded data breaches, 108 of them were in the  
20 banking/credit/financial industry, with the number of sensitive records being  
21 exposed exceeding 100 million. In fact, over 62% of the 164 million sensitive  
22 records exposed in data breaches in 2019 were exposed in those 108 breaches in  
23 the banking/credit/financial sector.<sup>10</sup>

24  
25 \_\_\_\_\_  
26 <sup>9</sup> [https://www.idtheftcenter.org/wp-](https://www.idtheftcenter.org/wp-content/uploads/2020/01/01.28.2020_ITRC_2019-End-of-Year-Data-Breach-Report_FINAL_Highres-Appendix.pdf)  
27 [content/uploads/2020/01/01.28.2020\\_ITRC\\_2019-End-of-Year-Data-Breach-](https://www.idtheftcenter.org/wp-content/uploads/2020/01/01.28.2020_ITRC_2019-End-of-Year-Data-Breach-Report_FINAL_Highres-Appendix.pdf)  
28 [Report\\_FINAL\\_Highres-Appendix.pdf](https://www.idtheftcenter.org/wp-content/uploads/2020/01/01.28.2020_ITRC_2019-End-of-Year-Data-Breach-Report_FINAL_Highres-Appendix.pdf) (last accessed November 2, 2021)

<sup>10</sup> *Id.*

1 42. The 108 reported financial sector data breaches reported in 2019  
2 exposed 100,621,770 sensitive records, compared to 2018 in which only 1,778,658  
3 sensitive records were exposed in financial sector breaches.<sup>11</sup>

4 43. Consumers place a high value not only on their PII, but also on the  
5 privacy of that data. This is because identity theft causes “significant negative  
6 financial impact on victims” as well as severe distress and other strong emotions  
7 and physical reactions.

8 44. Consumers are particularly concerned with protecting the privacy of  
9 their financial account information and social security numbers, which are the  
10 “secret sauce” that is “as good as your DNA to hackers.” There are long-term  
11 consequences to data breach victims whose social security numbers are taken and  
12 used by hackers. Even if they know their social security numbers have been  
13 accessed, Plaintiff and Class Members cannot obtain new numbers unless they  
14 become a victim of social security number misuse. Even then, the Social Security  
15 Administration has warned that “a new number probably won’t solve all []  
16 problems ... and won’t guarantee ... a fresh start.”

17 45. In light of recent high profile data breaches at other industry leading  
18 companies, including, Microsoft (250 million records, December 2019), Wattpad  
19 (268 million records, June 2020), Facebook (267 million users, April 2020), Estee  
20 Lauder (440 million records, January 2020), Whisper (900 million records, March  
21 2020), and Advanced Info Service (8.3 billion records, May 2020), Timios knew  
22 or should have known that its electronic records would be targeted by  
23 cybercriminals.

24 46. Indeed, cyberattacks have become so notorious that the FBI and U.S.  
25 Secret Service have issued a warning to potential targets so they are aware of, and  
26 prepared for, a potential attack.

27 47. Despite the prevalence of public announcements of data breach and

---

28 <sup>11</sup> *Id* at p15.

1 data security compromises, and despite its own acknowledgments of data security  
2 compromises, and despite their own acknowledgment of its duties to keep PII  
3 private and secure, Timios failed to take appropriate steps to protect the PII of  
4 Plaintiffs and the proposed Class from being compromised.

5 ***At All Relevant Times Timios Had a Duty to Plaintiff and Class Members***  
6 ***to Properly Secure their Private Information***

7  
8 48. At all relevant times, Timios had a duty to Plaintiffs and Class  
9 Members to properly secure their PII, encrypt and maintain such information using  
10 industry standard methods, train its employees, utilize available technology to  
11 defend its systems from invasion, act reasonably to prevent foreseeable harm to  
12 Plaintiffs and Class Members, and to promptly notify Plaintiffs and Class Members  
13 when Timios became aware that their PII may have been compromised.

14 49. Timios's duty to use reasonable security measures arose as a result of  
15 the special relationship that existed between Timios, on the one hand, and Plaintiffs  
16 and the Class Members, on the other hand. The special relationship arose because  
17 Plaintiffs and the Members of the Class entrusted Timios with their PII when they  
18 purchased financial products or services from Timios.

19 50. Timios had the resources necessary to prevent the Data Breach but  
20 neglected to adequately invest in security measures, despite its obligation to protect  
21 such information. Accordingly, Timios breached its common law, statutory, and  
22 other duties owed to Plaintiffs and Class Members.

23 51. Security standards commonly accepted among businesses that store  
24 PII using the internet include, without limitation:

- 25 a. Maintaining a secure firewall configuration;  
26 b. Maintaining appropriate design, systems, and controls to limit user  
27 access to certain information as necessary;  
28 c. Monitoring for suspicious or irregular traffic to servers;

- 1 d. Monitoring for suspicious credentials used to access servers;
- 2 e. Monitoring for suspicious or irregular activity by known users;
- 3 f. Monitoring for suspicious or unknown users;
- 4 g. Monitoring for suspicious or irregular server requests;
- 5 h. Monitoring for server requests for PII;
- 6 i. Monitoring for server requests from VPNs; and
- 7 j. Monitoring for server requests from Tor exit nodes.

8 52. The Federal Trade Commission (“FTC”) defines identity theft as “a  
9 fraud committed or attempted using the identifying information of another person  
10 without authority.”<sup>12</sup> The FTC describes “identifying information” as “any name  
11 or number that may be used, alone or in conjunction with any other information, to  
12 identify a specific person,” including, among other things, “[n]ame, Social Security  
13 number, date of birth, official State or government issued driver’s license or  
14 identification number, alien registration number, government passport number,  
15 employer or taxpayer identification number.”<sup>13</sup>

16 53. The ramifications of Timios’s failure to keep its consumers’ PII secure  
17 are long lasting and severe. Once PII is stolen, particularly Social Security and  
18 driver’s license numbers, fraudulent use of that information and damage to victims  
19 may continue for years.

20 ***The Value of Personal Identifiable Information***

21 54. The PII of consumers remains of high value to criminals, as evidenced  
22 by the prices they will pay through the dark web. Numerous sources cite dark web  
23 pricing for stolen identity credentials. For example, personal information can be  
24 sold at a price ranging from \$40 to \$200, and bank details have a price range of \$50  
25

26  
27 <sup>12</sup> 17 C.F.R. § 248.201 (2013).

28 <sup>13</sup> *Id.*

1 to \$200.<sup>14</sup> According to the Dark Web Price Index for 2021, payment card details  
2 for an account balance up to \$1,000 have an average market value of \$150, credit  
3 card details with an account balance up to \$5,000 have an average market value of  
4 \$240, stolen online banking logins with a minimum of \$100 on the account have  
5 an average market value of \$40, and stolen online banking logins with a minimum  
6 of \$2,000 on the account have an average market value of \$120.<sup>15</sup>

7 Criminals can also purchase access to entire company data breaches from \$900 to  
8 \$4,500.<sup>16</sup>

9 55. Social Security numbers, for example, are among the worst kind of  
10 personal information to have stolen because they may be put to a variety of  
11 fraudulent uses and are difficult for an individual to change. The Social Security  
12 Administration stresses that the loss of an individual's Social Security number, as  
13 is the case here, can lead to identity theft and extensive financial fraud:

14 A dishonest person who has your Social Security number can use it to  
15 get other personal information about you. Identity thieves can use your  
16 number and your good credit to apply for more credit in your name.  
17 Then, they use the credit cards and don't pay the bills, it damages your  
18 credit. You may not find out that someone is using your number until  
19 you're turned down for credit, or you begin to get calls from unknown  
20 creditors demanding payment for items you never bought. Someone  
21 illegally using your Social Security number and assuming your  
22

---

23 <sup>14</sup> *Your personal data is for sale on the dark web. Here's how much it costs*, Digital  
24 Trends, Oct. 16, 2019, available at:

1 identity can cause a lot of problems.<sup>17</sup>

2 56. What's more, it is no easy task to change or cancel a stolen Social  
3 Security number. An individual cannot obtain a new Social Security number  
4 without significant paperwork and evidence of actual misuse. In other words,  
5 preventive action to defend against the possibility of misuse of a Social Security  
6 number is not permitted; an individual must show evidence of actual, ongoing fraud  
7 activity to obtain a new number.

8 57. Even then, a new Social Security number may not be effective, as  
9 "[t]he credit bureaus and banks are able to link the new number very quickly to the  
10 old number, so all of that old bad information is quickly inherited into the new  
11 Social Security number."<sup>18</sup>

12 58. This data, as one would expect, demands a much higher price on the  
13 black market. Martin Walter, senior director at cybersecurity firm RedSeal,  
14 explained, "[c]ompared to credit card information, personally identifiable  
15 information and Social Security Numbers are worth more than 10x on the black  
16 market."<sup>19</sup>

17 59. Driver's license numbers are also incredibly valuable. "Hackers  
18 harvest license numbers because they're a very valuable piece of information. A  
19 driver's license can be a critical part of a fraudulent, synthetic identity – which go

1 for about \$1200 on the Dark Web. On its own, a forged license can sell for around  
2 \$200.”<sup>20</sup>

3 60. According to national credit bureau Experian:

4 A driver's license is an identity thief's paradise. With that one card, someone  
5 knows your birthdate, address, and even your height, eye color, and  
6 signature. If someone gets your driver's license number, it is also concerning  
7 because it's connected to your vehicle registration and insurance policies, as  
8 well as records on file with the Department of Motor Vehicles, place of  
9 employment (that keep a copy of your driver's license on file), doctor's  
10 office, government agencies, and other entities. Having access to that one  
11 number can provide an identity thief with several pieces of information they  
12 want to know about you.  
13  
14  
15  
16  
17

18 Next to your Social Security number, your driver's license number is one of  
19 the most important pieces of information to keep safe from thieves.<sup>21</sup>  
20  
21

1           61. According to cybersecurity specialty publication CPO Magazine,  
2 “[t]o those unfamiliar with the world of fraud, driver’s license numbers might seem  
3 like a relatively harmless piece of information to lose if it happens in isolation.”<sup>22</sup>

4 However, this is not the case. As cybersecurity experts point out:

5           “It’s a gold mine for hackers. With a driver’s license number, bad  
6 actors can manufacture fake IDs, slotting in the number for any form  
7 that requires ID verification, or use the information to craft curated  
8 social engineering phishing attacks.”<sup>23</sup>  
9

10  
11  
12           62. Victims of driver’s license number theft also often suffer  
13 unemployment benefit fraud, as described in a recent New York Times article.<sup>24</sup>

14           63. PII can be used to distinguish, identify, or trace an individual’s  
15 identity, such as their name and Social Security number. This can be accomplished  
16 alone, or in combination with other personal or identifying information that is  
17 connected or linked to an individual, such as their birthdate, birthplace, and  
18 mother’s maiden name.<sup>25</sup>

19           64. Given the nature of the Data Breach, it is foreseeable that the  
20 compromised PII can be used by hackers and cybercriminals in a variety of

28 <sup>25</sup> *See* OFFICE OF MGMT. & BUDGET, OMB MEMORANDUM M-07-16 n. 1.

1 devastating ways. Indeed, the cybercriminals who possess Class Members' PII can  
2 easily obtain Class Members' tax returns or open fraudulent credit card accounts in  
3 Class Members' names.

4 65. Based on the foregoing, the information compromised in the Data  
5 Breach is significantly more valuable than the loss of, for example, credit card  
6 information in a retailer data breach, because, there, victims can cancel or close  
7 credit and debit card accounts.<sup>26</sup> The information compromised in this Data Breach  
8 is impossible to "close" and difficult, if not impossible, to change (such as Social  
9 Security numbers).

10 66. To date, Timios has offered its consumers only one year of identity  
11 monitoring service. The offered services are inadequate to protect Plaintiffs and  
12 Class Members from the threats they face for years to come, particularly in light of  
13 the PII at issue here.

14 67. The injuries to Plaintiffs and Class Members were directly and  
15 proximately caused by Timios's failure to implement or maintain adequate data  
16 security measures for its current and former customers.

17 ***Timios Failed to Comply with FTC Guidelines***

18 68. Federal and State governments have likewise established security  
19 standards and issued recommendations to temper data breaches and the resulting  
20 harm to consumers and financial institutions. The Federal Trade Commission  
21 ("FTC") has issued numerous guides for business highlighting the importance of  
22  
23  
24

25 \_\_\_\_\_  
26 <sup>26</sup> See Jesse Damiani, *Your Social Security Number Costs \$4 On The Dark Web,*  
27 *New Report Finds*, Forbes, Mar 25, 2020, available at:  
28 <https://www.forbes.com/sites/jessedamiani/2020/03/25/your-social-security-number-costs-4-on-the-dark-web-new-report-finds/?sh=6a44b6d513f1>.

1 reasonable data security practices. According to the FTC, the need for data security  
2 should be factored into all business decision-making.<sup>27</sup>

3 69. In 2016, the FTC updated its publication, *Protecting Personal*  
4 *Information: A Guide for Business*, which established guidelines for fundamental  
5 data security principles and practices for business.<sup>28</sup> The guidelines note businesses  
6 should protect the personal consumer and consumer information that they keep, as  
7 well as properly dispose of personal information that is no longer needed; encrypt  
8 information stored on computer networks; understand their network's  
9 vulnerabilities; and implement policies to correct security problems.

10 70. The FTC recommends that companies verify that third-party service  
11 providers have implemented reasonable security measures.<sup>29</sup>

12 71. The FTC recommends that businesses:

13 a. Identify all connections to the computers where you store sensitive  
14 information.

15 b. Assess the vulnerability of each connection to commonly known or  
16 reasonably foreseeable attacks.

17 c. Do not store sensitive consumer data on any computer with an internet  
18 connection unless it is essential for conducting their business.

19 d. Scan computers on their network to identify and profile the operating  
20 system and open network services. If services are not needed, they should be  
21 disabled to prevent hacks or other potential security problems. For example,  
22 if email service or an internet connection is not necessary on a certain  
23

26 startwithsecurity.pdf](https://www.ftc.gov/system/files/documents/plain-language/pdf0205-startwithsecurity.pdf)

27 <sup>28</sup> Federal Trade Commission, *Protecting Personal Information: A Guide for*  
28 *Business*, available at: [https://www.ftc.gov/tips-advice/business-  
center/guidance/protecting-personal-information-guide-business](https://www.ftc.gov/tips-advice/business-center/guidance/protecting-personal-information-guide-business)

<sup>29</sup> FTC, *Start With Security*, *supra* note 18.

1 computer, a business should consider closing the ports to those services on  
2 that computer to prevent unauthorized access to that machine.

3 e. Pay particular attention to the security of their web applications—the  
4 software used to give information to visitors to their websites and to retrieve  
5 information from them. Web applications may be particularly vulnerable to  
6 a variety of hack attacks

7 f. Use a firewall to protect their computers from hacker attacks while it  
8 is connected to a network, especially the internet.

9 g. Determine whether a border firewall should be installed where the  
10 business's network connects to the internet. A border firewall separates the  
11 network from the internet and may prevent an attacker from gaining access  
12 to a computer on the network where sensitive information is stored. Set  
13 access controls—settings that determine which devices and traffic get  
14 through the firewall—to allow only trusted devices with a legitimate  
15 business need to access the network. Since the protection a firewall provides  
16 is only as effective as its access controls, they should be reviewed  
17 periodically.

18 h. Monitor incoming traffic for signs that someone is trying to hack in.  
19 Keep an eye out for activity from new users, multiple log-in attempts from  
20 unknown users or computers, and higher-than-average traffic at unusual  
21 times of the day.

22 i. Monitor outgoing traffic for signs of a data breach. Watch for  
23 unexpectedly large amounts of data being transmitted from their system to  
24 an unknown user. If large amounts of information are being transmitted from  
25 a business' network, the transmission should be investigated to make sure it  
26 is authorized.

27 72. The FTC has brought enforcement actions against businesses for  
28 failing to protect consumer and consumer data adequately and reasonably, treating

1 the failure to employ reasonable and appropriate measures to protect against  
2 unauthorized access to confidential consumer data as an unfair act or practice  
3 prohibited by Section 5 of the Federal Trade Commission Act (“FTCA”), 15 U.S.C.  
4 § 45. Orders resulting from these actions further clarify the measures businesses  
5 must take to meet their data security obligations.

6 73. Because Class Members entrusted Timios with their PII, Timios had,  
7 and has, a duty to the Class Members to keep their PII secure.

8 74. Plaintiffs and the other Class Members reasonably expected that when  
9 they provide PII to Timios, Timios would safeguard their PII.

10 75. Timios was at all times fully aware of its obligation to protect the  
11 personal and financial data of consumers, including Plaintiffs and members of the  
12 Classes. Timios was also aware of the significant repercussions if it failed to do so.

13 76. Timios’s failure to employ reasonable and appropriate measures to  
14 protect against unauthorized access to confidential consumer data—including  
15 Plaintiffs’ and Class Members’ Social Security numbers, driver’s license numbers,  
16 financial/payment card information, and other highly sensitive and confidential  
17 information— constitutes an unfair act or practice prohibited by Section 5 of the  
18 FTC Act, 15 U.S.C. § 45.

19 ***Plaintiffs and Class Members Have Suffered Concrete Injury As A Result***  
20 ***Of Defendant’s Inadequate Security And The Data Breach It Allowed.***  
21

22 77. Plaintiffs and Class Members reasonably expected that Defendant  
23 would provide adequate security protections for their PII, and Class Members  
24 provided Defendant with sensitive personal information, including their Social  
25 Security numbers and driver’s license numbers.

26 78. Defendant’s poor data security deprived Plaintiffs and Class Members  
27 of the benefit of their bargain. When agreeing to pay Defendant for its service,  
28 Plaintiffs and other reasonable consumers understood and expected that they were

1 paying for services and data security, when in fact Defendant did not provide the  
2 expected data security. Accordingly, Plaintiffs and Class Members received  
3 services that were of a lesser value than what they reasonably expected. As such,  
4 Plaintiffs and the Class Members suffered pecuniary injury.

5 79. Cybercriminals capture PII to exploit it; the Class Members are now,  
6 and for the rest of their lives will be, at a heightened risk of identity theft. Plaintiffs  
7 have also incurred (and will continue to incur) damages in the form of, *inter alia*,  
8 loss of privacy and costs of engaging adequate credit monitoring and identity theft  
9 protection services.

10 80. The cybercriminals who obtained the Class Members' PII may exploit  
11 the information they obtained by selling the data in so-called "dark markets."  
12 Having obtained these names, addresses, Social Security numbers, and other PII,  
13 cybercriminals can pair the data with other available information to commit a broad  
14 range of fraud in a Class Member's name, including but not limited to:

- 15 • obtaining employment;
- 16 • obtaining a loan;
- 17 • applying for credit cards or spending money;
- 18 • filing false tax returns;
- 19 • stealing Social Security and other government benefits; and
- 20 • applying for a driver's license, birth certificate, or other public  
21 document.

22 81. In addition, if a Class Member's Social Security number is used to  
23 create false identification for someone who commits a crime, the Class Member  
24 may become entangled in the criminal justice system, impairing the person's ability  
25 to gain employment or obtain a loan.

26 82. As a direct and/or proximate result of Defendant's wrongful actions  
27 and/or inaction and the resulting Data Breach, Plaintiffs and the other Class  
28 Members have been deprived of the value of their PII, for which there is a well-

1 established national and international market.

2 83. Furthermore, PII has a long shelf-life because it contains different  
3 forms of personal information, it can be used in more ways than one, and it typically  
4 takes time for an information breach to be detected.<sup>30</sup>

5 84. Accordingly, Defendant's wrongful actions and/or inaction and the  
6 resulting Data Breach have also placed Plaintiffs and the other Class Members at  
7 an imminent, immediate, and continuing increased risk of identity theft and identity  
8 fraud.<sup>31</sup> Indeed, "[t]he level of risk is growing for anyone whose information is  
9 stolen in a data breach."<sup>32</sup> Javelin Strategy & Research, a leading provider of  
10 quantitative and qualitative research, notes that "[t]he theft of SSNs places  
11 consumers at a substantial risk of fraud."<sup>33</sup> Moreover, there is a high likelihood  
12 that significant identity fraud and/or identity theft has not yet been discovered or  
13 reported. Even data that have not yet been exploited by cybercriminals bears a high  
14 risk that the cybercriminals who now possess Class Members' PII will do so at a  
15 later date or re-sell it.

16 85. As a result of the Data Breach, Plaintiffs and Class Members have  
17 already suffered damages.

18 86. Since the Data Breach, Defendant has represented to the Class  
19 Members that it "was unable to determine whether the unauthorized actor actually  
20

22 <sup>31</sup> *Data Breach Victims More Likely To Suffer Identity Fraud*, INSURANCE  
23 INFORMATION INSTITUTE BLOG (February 23, 2012),  
<http://www.iii.org/insuranceindustryblog/?p=267>.

24 <sup>32</sup> Susan Ladika, *Study: Data Breaches Pose A Greater Risk*, CREDITCARDS.COM  
25 (July 23, 2014), <http://www.creditcards.com/credit-card-news/data-breach-id-theft-risk-increase-study-1282.php>.

26 <sup>33</sup> THE CONSUMER DATA INSECURITY REPORT: EXAMINING THE DATA BREACH-  
27 IDENTITY FRAUD PARADIGM IN FOUR MAJOR METROPOLITAN AREAS, (*available at*  
28 [https://www.it.northwestern.edu/bin/docs/TheConsumerDataInsecurityReport\\_by\\_NCL.pdf](https://www.it.northwestern.edu/bin/docs/TheConsumerDataInsecurityReport_by_NCL.pdf)).

1 viewed any of the information,” yet it is likely that the cybercriminals did steal data  
2 and did so undetected. EmiSoft, an award-winning malware-protection software  
3 company, states that “[a]n absence of evidence of exfiltration should not be  
4 construed to be evidence of its absence, especially during the preliminary stages of  
5 the investigation.”<sup>34</sup>

6 87. In this case, according to Defendant’s, cybercriminals had access to  
7 Class Members’ data on at least July 19, 2021 to July 25, 2021.

8 88. Accordingly, that Defendant has not found evidence of data being  
9 viewed is not an assurance that the data were not accessed, acquired, and stolen.  
10 Indeed, the likelihood that cybercriminals stole the data covertly is significant,  
11 likely, and concerning.

#### 12 ***Plaintiff Schellhorn’s Experience***

13 89. In or about early 2021, Plaintiff Myron Schellhorn was a Timios  
14 customer in Nebraska. He was required to supply Timios with his personal  
15 identifiable information, including but not limited to his name, address, date of  
16 birth, Social Security number, driver’s license number, telephone number and  
17 email address, to participate in Timios’s services.

18 90. Mr. Schellhorn received the *Notice of Data Breach*, dated October 8,  
19 2021, on or about that date.

20 91. Mr. Schellhorn has experienced an increase in the number of phishing  
21 texts he receives on his cellphone since in or about August 2021.

22 92. As a result of the Data Breach notice, Mr. Schellhorn spent over eight  
23 hours dealing with the consequences of the Data Breach, which includes time spent  
24 verifying the legitimacy of the *Notice of Data Breach*, communicating with Timios  
25 representatives, communicating with his bank, exploring credit monitoring and

1 identity theft insurance options, signing up for the credit monitoring supplied by  
2 Timios, reporting the breach to the IRS and FTC, and self-monitoring his accounts.  
3 This time has been lost forever and cannot be recaptured.

4 93. Mr. Schellhorn is very careful about sharing PII, and has never  
5 knowingly transmitted unencrypted PII over the internet or any other unsecured  
6 source.

7 94. Mr. Schellhorn stores any and all documents containing PII in a safe  
8 and secure location, and shreds any documents he receives in the mail that contain  
9 any PII, or that may contain any information that could otherwise be used to  
10 compromise his credit card accounts and identity. Moreover, he diligently chooses  
11 unique usernames and passwords for his various online accounts.

12 95. Mr. Schellhorn suffered actual injury and damages in paying money  
13 to Timios for services before the Data Breach; expenditures which he would not  
14 have made had Timios disclosed that it lacked data security practices adequate to  
15 safeguard PII.

16 96. Mr. Schellhorn suffered actual injury in the form of damages and  
17 diminution in the value of his PII—a form of intangible property that he entrusted  
18 to Timios for the purpose of providing him services, which was compromised in  
19 and as a result of the Data Breach.

20 97. Mr. Schellhorn suffered lost time, annoyance, interference, and  
21 inconvenience as a result of the Data Breach and has anxiety and increased  
22 concerns for the loss of his privacy, especially his Social Security number.

23 98. Mr. Schellhorn has suffered imminent and impending injury arising  
24 from the substantially increased risk of fraud, identity theft, and misuse resulting  
25 from his stolen PII, especially his Social Security number, being placed in the hands  
26 of unauthorized third-parties and possibly criminals.

27 99. Mr. Schellhorn has a continuing interest in ensuring that his PII,  
28 which, upon information and belief, remains backed up in Timios's possession, is

1 protected and safeguarded from future breaches.

2 ***Plaintiff Rodney Lynn Allen's Experience***

3 100. On or about July 2021, Plaintiff Rodney Lynn Allen was a Timios  
4 customer in Illinois. He was required to supply Timios with his personal  
5 identifiable information, including but not limited to his name, address, date of  
6 birth, Social Security number, driver's license number, telephone number and  
7 email address, to participate in Timios's services.

8 101. Mr. Allen received the *Notice of Data Breach*, dated October 8, 2021,  
9 on or about that date.

10 102. Mr. Allen has experienced an increase in the number of phishing texts  
11 and telephone calls he receives on his cellphone since in or about August 2021.

12 103. As a result of the Data Breach notice, Mr. Allen spent time dealing  
13 with the consequences of the Data Breach, which includes time spent verifying the  
14 legitimacy of the *Notice of Data Breach*, exploring credit monitoring and identity  
15 theft insurance options, signing up for the credit monitoring supplied by Timios,  
16 and self-monitoring his accounts. This time has been lost forever and cannot be  
17 recaptured.

18 104. Mr. Allen is very careful about sharing PII, and has never knowingly  
19 transmitted unencrypted PII over the internet or any other unsecured source.

20 105. Mr. Allen stores any and all documents containing PII in a safe and  
21 secure location, and shreds any documents he receives in the mail that contain any  
22 PII, or that may contain any information that could otherwise be used to  
23 compromise his credit card accounts and identity. Moreover, he diligently chooses  
24 unique usernames and passwords for his various online accounts.

25 106. Mr. Allen suffered actual injury and damages in paying money to  
26 Timios for services before the Data Breach; expenditures which he would not have  
27 made had Timios disclosed that it lacked data security practices adequate to  
28 safeguard PII.

1           107. Mr. Allen suffered actual injury in the form of damages and  
2 diminution in the value of his PII—a form of intangible property that he entrusted  
3 to Timios for the purpose of providing him services, which was compromised in  
4 and as a result of the Data Breach.

5           108. Mr. Allen suffered lost time, annoyance, interference, and  
6 inconvenience as a result of the Data Breach and has anxiety and increased  
7 concerns for the loss of his privacy, especially his Social Security number.

8           109. Mr. Allen has suffered imminent and impending injury arising from  
9 the substantially increased risk of fraud, identity theft, and misuse resulting from  
10 his stolen PII, especially his Social Security number, being placed in the hands of  
11 unauthorized third-parties and possibly criminals.

12           110. Mr. Allen has a continuing interest in ensuring that his PII, which,  
13 upon information and belief, remains backed up in Timios’s possession, is  
14 protected and safeguarded from future breaches.

15           ***Plaintiff Tedda Allen’s Experience***

16           111. On or about July 2021, Plaintiff Tedda Allen was a Timios customer  
17 in Illinois. She was required to supply Timios with her personal identifiable  
18 information, including but not limited to her name, address, date of birth, Social  
19 Security number, driver’s license number, telephone number and email address, to  
20 participate in Timios’s services.

21           112. Mrs. Allen received the *Notice of Data Breach*, dated October 8, 2021,  
22 on or about that date.

23           113. Mrs. Allen has experienced an increase in the number of phishing texts  
24 and telephone calls she receives on his cellphone since in or about August 2021.

25           114. As a result of the Data Breach notice, Mrs. Allen spent time dealing  
26 with the consequences of the Data Breach, which includes time spent verifying the  
27 legitimacy of the *Notice of Data Breach*, exploring credit monitoring and identity  
28 theft insurance options, signing up for the credit monitoring supplied by Timios,

1 and self-monitoring his accounts. This time has been lost forever and cannot be  
2 recaptured.

3 115. Mrs. Allen is very careful about sharing PII, and has never knowingly  
4 transmitted unencrypted PII over the internet or any other unsecured source.

5 116. Mrs. Allen stores any and all documents containing PII in a safe and  
6 secure location, and shreds any documents he receives in the mail that contain any  
7 PII, or that may contain any information that could otherwise be used to  
8 compromise his credit card accounts and identity. Moreover, she diligently chooses  
9 unique usernames and passwords for his various online accounts.

10 117. Mrs. Allen suffered actual injury and damages in paying money to  
11 Timios for services before the Data Breach; expenditures which she would not have  
12 made had Timios disclosed that it lacked data security practices adequate to  
13 safeguard PII.

14 118. Mrs. Allen suffered actual injury in the form of damages and  
15 diminution in the value of her PII—a form of intangible property that she entrusted  
16 to Timios for the purpose of providing her services, which was compromised in  
17 and as a result of the Data Breach.

18 119. Mrs. Allen suffered lost time, annoyance, interference, and  
19 inconvenience as a result of the Data Breach and has anxiety and increased  
20 concerns for the loss of her privacy, especially her Social Security number.

21 120. Mrs. Allen has suffered imminent and impending injury arising from  
22 the substantially increased risk of fraud, identity theft, and misuse resulting from  
23 her stolen PII, especially her Social Security number, being placed in the hands of  
24 unauthorized third-parties and possibly criminals.

25 121. Mrs. Allen has a continuing interest in ensuring that her PII, which,  
26 upon information and belief, remains backed up in Timios's possession, is  
27 protected and safeguarded from future breaches.

28

1 **V. CLASS ALLEGATIONS**

2 122. Plaintiffs bring this nationwide class action on behalf of themselves  
3 and on behalf of all others similarly situated pursuant to Rule 23(b)(2), 23(b)(3),  
4 and 23(c)(4) of the Federal Rules of Civil Procedure.

5 123. The Nationwide Class that Plaintiffs seek to represent is defined as  
6 follows:

7 All persons residing in the United States whose PII was compromised  
8 in the data breach first announced by Timios on or about October 8,  
9 2021 (the “Nationwide Class”).

10 124. The Nebraska Subclass is defined as follows:

11 All persons residing in Nebraska whose PII was compromised in the  
12 data breach first announced by Timios on or about October 8, 2021  
13 (the “Nebraska Subclass”).

14 125. The Illinois Subclass is defined as follows:

15 All persons residing in Illinois whose PII was compromised in the data  
16 breach first announced by Timios on or about October 8, 2021 (the  
17 “Illinois Subclass”).

18 126. The above class and subclasses are herein referred to as the “Classes.”

19 127. Excluded from the Classes are the following individuals and/or  
20 entities: Timios and Timios’s parents, subsidiaries, affiliates, officers and directors,  
21 and any entity in which Timios has a controlling interest; all individuals who make  
22 a timely election to be excluded from this proceeding using the correct protocol for  
23 opting out; any and all federal, state or local governments, including but not limited  
24 to their departments, agencies, divisions, bureaus, boards, sections, groups,  
25 counsels and/or subdivisions; and all judges assigned to hear any aspect of this  
26 litigation, as well as their immediate family members.

27 128. Plaintiffs reserve the right to modify or amend the definition of the  
28 proposed classes before the Court determines whether certification is appropriate.

1           129. Numerosity, Fed R. Civ. P. 23(a)(1): Classes are so numerous that  
2 joinder of all members is impracticable. Timios has identified over 75,000  
3 consumers whose PII may have been improperly accessed in the Data Breach, and  
4 the Classes are apparently identifiable within Timios's records.

5           130. Commonality, Fed. R. Civ. P. 23(a)(2) and (b)(3): Questions of law  
6 and fact common to the Classes exist and predominate over any questions affecting  
7 only individual Class Members. These include:

- 8           a. Whether and to what extent Timios had a duty to protect the PII of  
9           Plaintiffs and Class Members;
- 10           b. Whether Timios had respective duties not to disclose the PII of  
11           Plaintiffs and Class Members to unauthorized third parties;
- 12           c. Whether Timios had respective duties not to use the PII of Plaintiffs and  
13           Class Members for non-business purposes;
- 14           d. Whether Timios failed to adequately safeguard the PII of Plaintiffs and  
15           Class Members;
- 16           e. Whether and when Timios actually learned of the Data Breach;
- 17           f. Whether Timios adequately, promptly, and accurately informed  
18           Plaintiffs and Class Members that their PII had been compromised;
- 19           g. Whether Timios violated the law by failing to promptly notify Plaintiffs  
20           and Class Members that their PII had been compromised;
- 21           h. Whether Timios failed to implement and maintain reasonable security  
22           procedures and practices appropriate to the nature and scope of the  
23           information compromised in the Data Breach;
- 24           i. Whether Timios adequately addressed and fixed the vulnerabilities  
25           which permitted the Data Breach to occur;
- 26           j. Whether Timios engaged in unfair, unlawful, or deceptive practices by  
27           failing to safeguard the PII of Plaintiffs and Class Members;
- 28           k. Whether Plaintiffs and Class Members are entitled to actual, damages,

1 statutory damages, and/or punitive damages as a result of Timios's  
2 wrongful conduct;

3 1. Whether Plaintiffs and Class Members are entitled to restitution as a  
4 result of Timios's wrongful conduct;

5 m. Whether Plaintiffs and Class Members are entitled to injunctive relief  
6 to redress the imminent and currently ongoing harm faced as a result of  
7 the Data Breach;

8 131. Typicality, Fed. R. Civ. P. 23(a)(3): Plaintiffs' claims are typical of  
9 those of other Class Members because all had their PII compromised as a result of  
10 the Data Breach, due to Timios's misfeasance.

11 132. Policies Generally Applicable to the Class: This class action is also  
12 appropriate for certification because Timios has acted or refused to act on grounds  
13 generally applicable to the Class, thereby requiring the Court's imposition of  
14 uniform relief to ensure compatible standards of conduct toward the Class  
15 Members, and making final injunctive relief appropriate with respect to the Class  
16 as a whole. Timios's policies challenged herein apply to and affect Class Members  
17 uniformly and Plaintiffs' challenge of these policies hinges on Timios's conduct  
18 with respect to the Class as a whole, not on facts or law applicable only to Plaintiffs.

19 133. Adequacy, Fed. R. Civ. P. 23(a)(4): Plaintiffs will fairly and  
20 adequately represent and protect the interests of the Class Members in that they  
21 have no disabling conflicts of interest that would be antagonistic to those of the  
22 other Members of the Class. Plaintiffs seek no relief that is antagonistic or adverse  
23 to the Members of the Class and the infringement of the rights and the damages  
24 they have suffered are typical of other Class Members. Plaintiffs have retained  
25 counsel experienced in complex consumer class action litigation, and Plaintiffs  
26 intend to prosecute this action vigorously.

27 134. Superiority and Manageability, Fed. R. Civ. P. 23(b)(3): The class  
28 litigation is an appropriate method for fair and efficient adjudication of the claims

1 involved. Class action treatment is superior to all other available methods for the  
2 fair and efficient adjudication of the controversy alleged herein; it will permit a  
3 large number of Class Members to prosecute their common claims in a single forum  
4 simultaneously, efficiently, and without the unnecessary duplication of evidence,  
5 effort, and expense that hundreds of individual actions would require. Class action  
6 treatment will permit the adjudication of relatively modest claims by certain Class  
7 Members, who could not individually afford to litigate a complex claim against  
8 large corporations, like Timios. Further, even for those Class Members who could  
9 afford to litigate such a claim, it would still be economically impractical and impose  
10 a burden on the courts.

11 135. The nature of this action and the nature of laws available to Plaintiffs  
12 and Class Members make the use of the class action device a particularly efficient  
13 and appropriate procedure to afford relief to Plaintiffs and Class Members for the  
14 wrongs alleged because Timios would necessarily gain an unconscionable  
15 advantage since they would be able to exploit and overwhelm the limited resources  
16 of each individual Class Member with superior financial and legal resources; the  
17 costs of individual suits could unreasonably consume the amounts that would be  
18 recovered; proof of a common course of conduct to which Plaintiffs were exposed  
19 is representative of that experienced by the Class and will establish the right of each  
20 Class Member to recover on the cause of action alleged; and individual actions  
21 would create a risk of inconsistent results and would be unnecessary and  
22 duplicative of this litigation.

23 136. The litigation of the claims brought herein is manageable. Timios's  
24 uniform conduct, the consistent provisions of the relevant laws, and the  
25 ascertainable identities of Class Members demonstrates that there would be no  
26 significant manageability problems with prosecuting this lawsuit as a class action.

27 137. Adequate notice can be given to Class Members directly using  
28 information maintained in Timios's records.

1           138. Unless a Class-wide injunction is issued, Timios may continue in its  
2 failure to properly secure the PII of Class Members, Timios may continue to refuse  
3 to provide proper notification to Class Members regarding the Data Breach, and  
4 Timios may continue to act unlawfully as set forth in this Complaint.

5           139. Further, Timios has acted or refused to act on grounds generally  
6 applicable to the Class and, accordingly, final injunctive or corresponding  
7 declaratory relief with regard to the Class Members as a whole is appropriate under  
8 Rule 23(b)(2) of the Federal Rules of Civil Procedure.

9           140. Likewise, particular issues under Rule 23(c)(4) are appropriate for  
10 certification because such claims present only particular, common issues, the  
11 resolution of which would advance the disposition of this matter and the parties'  
12 interests therein. Such particular issues include, but are not limited to:

- 13           a. Whether Timios owed a legal duty to Plaintiffs and Class Members  
14           to exercise due care in collecting, storing, using, and safeguarding  
15           their PII;
- 16           b. Whether Timios breached a legal duty to Plaintiffs and Class  
17           Members to exercise due care in collecting, storing, using, and  
18           safeguarding their PII;
- 19           c. Whether Timios failed to comply with its own policies and  
20           applicable laws, regulations, and industry standards relating to data  
21           security;
- 22           d. Whether an implied contract existed between Timios on the one  
23           hand, and Plaintiffs and Class Members on the other, and the terms  
24           of that implied contract;
- 25           e. Whether Timios breached the implied contract;
- 26           f. Whether Timios adequately, and accurately informed Plaintiffs and  
27           Class Members that their PII had been compromised;
- 28           g. Whether Timios failed to implement and maintain reasonable

1 security procedures and practices appropriate to the nature and  
2 scope of the information compromised in the Data Breach;

3 h. Whether Timios engaged in unfair, unlawful, or deceptive practices  
4 by failing to safeguard the PII of Plaintiffs and Class Members; and,

5 i. Whether Class Members are entitled to actual damages, statutory  
6 damages, injunctive relief, and/or punitive damages as a result of  
7 Timios's wrongful conduct.

8 **COUNT I**  
9 **Negligence**

10 **(On Behalf of Plaintiffs and the Nationwide Class,**  
11 **or in the alternative, on behalf of the Subclasses)**

12 141. Plaintiffs restate and reallege all of the foregoing Paragraphs 1 through  
13 140 as if fully set forth herein.

14 142. As a condition of their using the services of Timios, consumers were  
15 obligated to provide Timios with certain PII, including their name, date of birth,  
16 address, Social Security number, driver's license, telephone number, email address,  
17 state-issued identification numbers, passport numbers, tax identification numbers,  
18 military identification numbers, financial account numbers, and payment card  
19 numbers.

20 143. Plaintiffs and Class Members entrusted their PII to Timios on the  
21 premise and with the understanding that Timios would safeguard their information,  
22 use their PII for business purposes only, and/or not disclose their PII to  
23 unauthorized third parties.

24 144. Timios has full knowledge of the sensitivity of the PII and the types  
25 of harm that Plaintiffs and Class Members could and would suffer if the PII were  
26 wrongfully disclosed.

27 145. Timios knew or reasonably should have known that the failure to  
28 exercise due care in the collecting, storing, and using of their consumers' PII

1 involved an unreasonable risk of harm to Plaintiffs and Class Members, even if the  
2 harm occurred through the criminal acts of a third party.

3 146. Timios had a duty to exercise reasonable care in safeguarding,  
4 securing, and protecting such information from being compromised, lost, stolen,  
5 misused, and/or disclosed to unauthorized parties. This duty includes, among other  
6 things, designing, maintaining, and testing Timios's security protocols to ensure  
7 that Plaintiffs' and Class Members' information in Timios's possession was  
8 adequately secured and protected.

9 147. Timios also had a duty to have procedures in place to detect and  
10 prevent the improper access and misuse of Plaintiffs' and Class Members' PII.

11 148. A breach of security, unauthorized access, and resulting injury to  
12 Plaintiffs and the Class Members was reasonably foreseeable, particularly in light  
13 of Timios's inadequate security practices and previous breach incidents involving  
14 Timios consumers' PII on stolen equipment.

15 149. Plaintiffs and the Class Members were the foreseeable and probable  
16 victims of any inadequate security practices and procedures. Timios knew or should  
17 have known of the inherent risks in collecting and storing the PII of Plaintiffs and  
18 the Class, the critical importance of providing adequate security of that PII, and the  
19 necessity for encrypting PII stored on Timios's systems.

20 150. Timios's own conduct created a foreseeable risk of harm to Plaintiffs  
21 and Class Members. Timios's misconduct included, but was not limited to, its  
22 failure to take the steps and opportunities to prevent the Data Breach as set forth  
23 herein. Timios's misconduct also included its decisions not to comply with industry  
24 standards for the safekeeping of Plaintiffs' and Class Members' PII, including basic  
25 encryption techniques freely available to Timios.

26 151. Plaintiffs and the Class Members had no ability to protect their PII that  
27 was in, and possibly remains in, Timios's possession.

28 152. Timios was in a position to protect against the harm suffered by

1 Plaintiffs and Class Members as a result of the Data Breach.

2 153. Timios had and continues to have a duty to adequately disclose that  
3 the PII of Plaintiffs and Class Members within Timios's possession might have  
4 been compromised, how it was compromised, and precisely the types of data that  
5 were compromised and when. Such notice was necessary to allow Plaintiffs and  
6 Class Members to take steps to prevent, mitigate, and repair any identity theft and  
7 the fraudulent use of their PII by third parties.

8 154. Timios had a duty to employ proper procedures to prevent the  
9 unauthorized dissemination of the PII of Plaintiffs and Class Members.

10 155. Timios has admitted that the PII of Plaintiffs and Class Members was  
11 wrongfully lost and disclosed to unauthorized third persons as a result of the Data  
12 Breach.

13 156. Timios, through its actions and/or omissions, unlawfully breached its  
14 duties to Plaintiffs and Class Members by failing to implement industry protocols  
15 and exercise reasonable care in protecting and safeguarding the PII of Plaintiffs and  
16 Class Members during the time the PII was within Timios's possession or control.

17 157. Defendant failed to meet the minimum standards of any of the  
18 following frameworks: the NIST Cybersecurity Framework Version 1.1 (including  
19 without limitation PR.AC-1, PR.AC-3, PR.AC-4, PR.AC-5, PR.AC-6, PR.AC-7,  
20 PR.AT-1, PR.DS-1, PR.DS-5, PR.PT-1, PR.PT-3, DE.CM-1, DE.CM-4, DE.CM-  
21 7, DE.CM-8, and RS.CO-2), and the Center for Internet Security's Critical Security  
22 Controls (CIS CSC), which are all established standards in reasonable  
23 cybersecurity readiness.

24 158. These foregoing frameworks are existing and applicable industry  
25 standards in the financial services industry, and Defendant failed to comply with  
26 these accepted standards thereby opening the door to the cyber incident and causing  
27 the data breach.

28 159. Timios improperly and inadequately safeguarded the PII of Plaintiffs

1 and Class Members in deviation of standard industry rules, regulations, and  
2 practices at the time of the Data Breach.

3 160. Timios failed to heed industry warnings and alerts to provide adequate  
4 safeguards to protect consumers' PII in the face of increased risk of theft.

5 161. Timios, through its actions and/or omissions, unlawfully breached its  
6 duty to Plaintiffs and Class Members by failing to have appropriate procedures in  
7 place to detect and prevent dissemination of its consumers' PII.

8 162. Timios, through its actions and/or omissions, unlawfully breached its  
9 duty to adequately and timely disclose to Plaintiffs and Class Members the  
10 existence and scope of the Data Breach.

11 163. But for Timios's wrongful and negligent breach of duties owed to  
12 Plaintiffs and Class Members, the PII of Plaintiffs and Class Members would not  
13 have been compromised.

14 164. There is a close causal connection between Timios's failure to  
15 implement security measures to protect the PII of Plaintiffs and Class Members and  
16 the harm suffered or risk of imminent harm suffered by Plaintiffs and the Class.  
17 Plaintiffs' and Class Members' PII was lost and accessed as the proximate result  
18 of Timios's failure to exercise reasonable care in safeguarding such PII by  
19 adopting, implementing, and maintaining appropriate security measures.

20 165. Additionally, Section 5 of the FTC Act prohibits "unfair . . . practices  
21 in or affecting commerce," including, as interpreted and enforced by the FTC, the  
22 unfair act or practice by businesses, such as Timios, of failing to use reasonable  
23 measures to protect PII. The FTC publications and orders described above also  
24 form part of the basis of Timios's duty in this regard.

25 166. Timios violated Section 5 of the FTC Act by failing to use reasonable  
26 measures to protect PII and not complying with applicable industry standards, as  
27 described in detail herein. Timios's conduct was particularly unreasonable given  
28 the nature and amount of PII it obtained and stored and the foreseeable

1 consequences of the immense damages that would result to Plaintiffs and Class  
2 Members.

3 167. Timios's violation of Section 5 of the FTC Act constitutes negligence  
4 *per se*.

5 168. Plaintiffs and Class members are within the class of persons that the  
6 FTC Act was intended to protect.

7 169. The harm that occurred as a result of the Data Breach is the type of  
8 harm the FTC Act was intended to guard against. The FTC has pursued  
9 enforcement actions against businesses, which, as a result of their failure to employ  
10 reasonable data security measures and avoid unfair and deceptive practices, caused  
11 the same harm as that suffered by Plaintiffs and the Class.

12 170. As a direct and proximate result of Timios's negligence and  
13 negligence *per se*, Plaintiffs and Class Members have suffered and will suffer  
14 injury, including but not limited to: (i) actual identity theft; (ii) the loss of the  
15 opportunity of how their PII is used; (iii) the compromise, publication, and/or theft  
16 of their PII; (iv) out-of-pocket expenses associated with the prevention, detection,  
17 and recovery from identity theft, tax fraud, and/or unauthorized use of their PII; (v)  
18 lost opportunity costs associated with effort expended and the loss of productivity  
19 addressing and attempting to mitigate the actual and future consequences of the  
20 Data Breach, including but not limited to efforts spent researching how to prevent,  
21 detect, contest, and recover from tax fraud and identity theft; (vi) costs associated  
22 with placing freezes on credit reports; (vii) the continued risk to their PII, which  
23 remain in Timios's possession and is subject to further unauthorized disclosures so  
24 long as Timios fails to undertake appropriate and adequate measures to protect the  
25 PII of consumers in their continued possession; (viii) future costs in terms of time,  
26 effort, and money that will be expended to prevent, detect, contest, and repair the  
27 impact of the PII compromised as a result of the Data Breach for the remainder of  
28 the lives of Plaintiffs and Class Members; and (ix) the diminished value of Timios's

1 goods and services they received.

2 171. As a direct and proximate result of Timios's negligence, Plaintiffs and  
3 Class Members have suffered and will continue to suffer other forms of injury  
4 and/or harm, including, but not limited to, anxiety, emotional distress, loss of  
5 privacy, and other economic and non-economic losses.

6 172. Additionally, as a direct and proximate result of Timios's negligence  
7 and negligence *per se*, Plaintiffs and Class members have suffered and will suffer  
8 the continued risks of exposure of their PII, which remain in Timios's possession  
9 and is subject to further unauthorized disclosures so long as Timios fails to  
10 undertake appropriate and adequate measures to protect the PII in its continued  
11 possession.

12  
13 **COUNT II**  
14 **Breach of Confidence**  
15 **(On Behalf of Plaintiffs and the Nationwide Class,**  
16 **or in the alternative, on behalf of the Subclasses)**

17 173. Plaintiffs restate and reallege the foregoing Paragraphs 1 through  
18 140 as if fully set forth herein.

19 174. At all times during Plaintiffs' and Class Members' interactions with  
20 Timios, Timios was fully aware of the confidential and sensitive nature of  
21 Plaintiffs' and Class Members' PII that Plaintiffs and Class Members provided to  
22 Timios.

23 175. As alleged herein and above, Timios's relationship with Plaintiffs and  
24 Class Members was governed by terms and expectations that Plaintiffs' and Class  
25 Members' PII would be collected, stored, and protected in confidence, and would  
26 not be disclosed to unauthorized third parties.

27 176. Plaintiffs and Class Members provided their respective PII to Timios  
28 with the explicit and implicit understandings that Timios would protect and not  
permit the PII to be disseminated to any unauthorized third parties.

1 177. Plaintiffs and Class Members also provided their respective PII to  
2 Defendant with the explicit and implicit understandings that Timios would take  
3 precautions to protect that PII from unauthorized disclosure.

4 178. Timios voluntarily received in confidence Plaintiffs' and Class  
5 Members' PII with the understanding that PII would not be disclosed or  
6 disseminated to the public or any unauthorized third parties.

7 179. Due to Timios's failure to prevent and avoid the Data Breach from  
8 occurring, Plaintiffs' and Class Members' PII was disclosed and misappropriated  
9 to unauthorized third parties beyond Plaintiffs' and Class Members' confidence,  
10 and without their express permission.

11 180. As a direct and proximate cause of Timios's actions and/or omissions,  
12 Plaintiffs and Class Members have suffered damages.

13 181. But for Timios's disclosure of Plaintiffs' and Class Members' PII in  
14 violation of the parties' understanding of confidence, their PII would not have been  
15 compromised, stolen, viewed, accessed, and used by unauthorized third parties.  
16 Timios's Data Breach was the direct and legal cause of the theft of Plaintiffs' and  
17 Class Members' PII, as well as the resulting damages.

18 182. The injury and harm Plaintiffs and Class Members suffered was the  
19 reasonably foreseeable result of Timios's unauthorized disclosure of Plaintiffs' and  
20 Class Members' PII. Timios knew or should have known its methods of accepting  
21 and securing Plaintiffs' and Class Members' PII was inadequate as it relates to, at  
22 the very least, disposal of servers and other equipment containing Plaintiffs' and  
23 Class Members' PII.

24 183. As a direct and proximate result of Timios's breach of its confidence  
25 with Plaintiffs and Class Members, Plaintiffs and Class Members have suffered and  
26 will suffer injury, including but not limited to: (i) actual identity theft; (ii) the loss  
27 of the opportunity how their PII is used; (iii) the compromise, publication, and/or  
28 theft of their PII; (iv) out-of-pocket expenses associated with the prevention,

1 detection, and recovery from identity theft, tax fraud, and/or unauthorized use of  
2 their PII; (v) lost opportunity costs associated with effort expended and the loss of  
3 productivity addressing and attempting to mitigate the actual and future  
4 consequences of the Data Breach, including but not limited to efforts spent  
5 researching how to prevent, detect, contest, and recover from tax fraud and identity  
6 theft; (vi) costs associated with placing freezes on credit reports; (vii) the continued  
7 risk to their PII, which remain in Defendant's possession and is subject to further  
8 unauthorized disclosures so long as Defendant fails to undertake appropriate and  
9 adequate measures to protect the PII of consumers and former consumers in its  
10 continued possession; (viii) future costs in terms of time, effort, and money that  
11 will be expended to prevent, detect, contest, and repair the impact of the PII  
12 compromised as a result of the Data Breach for the remainder of the lives of  
13 Plaintiffs and Class Members; and (ix) the diminished value of Timios's goods and  
14 services they received.

15 184. As a direct and proximate result of Defendant's breaches of  
16 confidence, Plaintiff and Class Members have suffered and will continue to suffer  
17 other forms of injury and/or harm, including, but not limited to, anxiety, emotional  
18 distress, loss of privacy, and other economic and non-economic losses.

19 **COUNT III**

20 **Breach of Implied Contract**

21 **(On Behalf of Plaintiffs and the Nationwide Class, or in the alternative, on  
22 behalf of the Subclasses)**

23 185. Plaintiffs restate and reallege the foregoing Paragraphs 1 through  
24 140 as if fully set forth herein.

25 186. As a condition of receiving services, Defendant required Plaintiffs and  
26 Class Members to provide their PII, including names, Social Security numbers,  
27 driver's license numbers, addresses, dates of birth, email addresses, state-issued  
28

1 identification numbers, passport numbers, tax identification numbers, military  
2 identification numbers, financial account numbers, and payment card numbers.

3 187. Defendant solicited and invited Plaintiffs and Class Members to  
4 provide their Private Information as part of Defendant's regular business practices.

5 188. Plaintiff and Class Members accepted Defendant's offers and  
6 provided their PII to Defendant. Defendant accepted the PII, and there was a  
7 meeting of the minds that Defendant would secure, protect, and keep the PII  
8 confidential.

9 189. Plaintiffs fully performed their obligations under the implied contracts  
10 with Defendant.

11 190. Plaintiffs would not have entered into transactions with Timios if  
12 Plaintiffs had known Timios would not protect their PII.

13 191. When Timios required and accepted the PII from Plaintiffs and the  
14 Class, it implied its assent to protect the information sufficiently.

15 192. Defendant breached the implied contracts it made with Plaintiffs and  
16 the Class by failing to safeguard and protect their PII, and by failing to provide  
17 timely and accurate notice to them that their PII was compromised as a result of the  
18 Data Breach.

19 193. Plaintiffs and Class Members who paid money to Defendant  
20 reasonably believed and expected that Defendant would use part of those funds to  
21 obtain adequate data security. Defendant failed to do so.

22 194. As a direct and proximate result of Defendant's above-described  
23 breach of implied contract, Plaintiffs and the Class have suffered (and will continue  
24 to suffer) ongoing, imminent, and impending threat of identity theft crimes, fraud,  
25 and abuse, resulting in monetary loss and economic harm; actual identity theft  
26 crimes, fraud, and abuse, resulting in monetary loss and economic harm; loss of the  
27 confidentiality of the stolen confidential data; the illegal sale of the compromised  
28 data on the dark web; expenses and/or time spent on credit monitoring and identity

1 theft insurance; time spent scrutinizing bank statements, credit card statements, and  
2 credit reports; expenses and/or time spent initiating fraud alerts, decreased credit  
3 scores and ratings; lost work time; and other economic and non-economic harm.

4 195. Plaintiffs and Class Members are entitled to compensatory,  
5 consequential, and nominal damages suffered as a result of the Data Breach,  
6 including the loss of the benefit of the bargain.

7 196. Plaintiffs and Class Members are also entitled to injunctive relief  
8 requiring Defendant to, e.g., (i) strengthen its data security systems and monitoring  
9 procedures; (ii) submit to future annual audits of those systems and monitoring  
10 procedures; and (iii) immediately provide adequate credit monitoring to all Class  
11 Members.

#### 12 **COUNT IV**

#### 13 **Intrusion into Private Affairs / Invasion of Privacy** 14 **(On Behalf of Plaintiffs and All Class Members)**

15 197. Plaintiffs restate and reallege the foregoing Paragraphs 1 through 140  
16 as if fully set forth herein.

17 198. California established the right to privacy in Article I, Section 1 of the  
18 California Constitution.

19 199. The State of California recognizes the tort of Intrusion into Private  
20 Affairs, and adopts the formulation of that tort found in the Restatement (Second)  
21 of Torts, which states:

22 One who intentionally intrudes, physically or otherwise, upon the  
23 solitude or seclusion of another or his private affairs or concerns, is  
24 subject to liability to the other for invasion of his privacy, if the  
intrusion would be highly offensive to a reasonable person.

25 Restatement (Second) of Torts § 652B (1977).

26 200. Plaintiffs and Class Members had a reasonable expectation of privacy  
27 in the Private Information Defendant mishandled.

1           201. Timios invaded Plaintiffs' and the Class Members' right to privacy by  
2 allowing the unauthorized access to Plaintiffs' and Class Members' PII and by  
3 negligently maintaining the confidentiality of Plaintiffs' and Class Members' PII,  
4 as set forth above.

5           202. The intrusion was offensive and objectionable to Plaintiffs, the Class  
6 Members, and to a reasonable person of ordinary sensibilities in that Plaintiffs' and  
7 Class Members' PII was disclosed without prior written authorization of Plaintiffs  
8 and the Class.

9           203. The intrusion was into a place or thing which was private and is  
10 entitled to be private, in that Plaintiffs and the Class Members provided and  
11 disclosed their PII to Timios privately with an intention that the PII would be kept  
12 confidential and protected from unauthorized disclosure. Plaintiffs and the Class  
13 Members were reasonable to believe that such information would be kept private  
14 and would not be disclosed without their written authorization.

15           204. As a direct and proximate result of Timios's above acts, Plaintiffs' and  
16 the Class Members' PII was viewed, distributed, and used by persons without prior  
17 written authorization and Plaintiffs and the Class Members suffered damages as  
18 described herein.

19           205. Timios has committed oppression, fraud, or malice by permitting the  
20 unauthorized disclosure of Plaintiffs' and the Class Members' PII with a willful  
21 and conscious disregard of Plaintiffs' and the Class Members' right to privacy.

22           206. Unless and until enjoined, and restrained by order of this Court,  
23 Timios's wrongful conduct will continue to cause Plaintiffs and the Class Members  
24 great and irreparable injury in that the PII maintained by Timios can be viewed,  
25 printed, distributed, and used by unauthorized persons. Plaintiffs and Class  
26 Members have no adequate remedy at law for the injuries in that a judgment for the  
27 monetary damages will not end the invasion of privacy for Plaintiffs and the Class,  
28

1 and Timios may freely treat Plaintiffs’ and Class Members’ PII with sub-standard  
2 and insufficient protections.

3 207. In failing to protect Plaintiffs and Class Members’ Private  
4 Information, and in intentionally misusing and/or disclosing their Private  
5 Information, Defendant acted with intentional malice and oppression and in  
6 conscious disregard of Plaintiffs’ and Class Members’ rights to have such  
7 information kept confidential and private. Plaintiffs, therefore, seek an award of  
8 damages on behalf of themselves and the Class.

9  
10 **COUNT V**  
11 **VIOLATION OF THE ILLINOIS CONSUMER FRAUD ACT**  
12 **815 ILL. COMP. STAT. §§ 505/1, et seq.**  
13 **(On Behalf of Plaintiffs Allen and Allen and the Illinois Subclass)**

14 208. Plaintiffs restate and reallege the foregoing Paragraphs 1 through 140  
15 as if fully set forth herein.

16 209. Plaintiffs Allen and Allen and the Illinois Subclass are “consumers”  
17 as that term is defined in 815 ILL. COMP. STAT. § 505/1(e).

18 210. Plaintiffs Allen and Allen, the Illinois Subclass and Defendant Timios  
19 are “persons” as that term is defined in 815 ILL. COMP. STAT. § 505/1(c).

20 211. Defendant is engaged in “trade” or “commerce,” including provision  
21 of services, as those terms are defined under 815 ILL. COMP. STAT. § 505/1(f).

22 212. Defendant engages in the “sale” of “merchandise” (including services)  
23 as defined by 815 ILL. COMP. STAT. § 505/1(b) and (d).

24 213. Defendant’s acts, practices and omissions were done in the course of  
25 Defendant’s business of marketing, offering for sale, and selling financial services  
26 in the State of Illinois.

27 214. Timios engaged in deceptive and unfair acts and practices,  
28 misrepresentation and the concealment, suppression and omission of material facts

1 in connection with the sale and advertisement of “merchandise” (as defined in the  
2 Illinois CFA) in violation of the Illinois CFA, including, but not limited to, the  
3 following:

- 4 a. failure to maintain adequate computer systems and data security  
5 practices to safeguard current and former customers’ PII;
- 6 b. failure to disclose the material fact that its computer systems and  
7 data security practices were inadequate to safeguard the personal  
8 information it was collecting and maintaining from theft;
- 9 c. failure to disclose in a timely and accurate manner to Plaintiff and  
10 the Illinois Subclass Members the material fact of Defendant’s data  
11 breach;
- 12 d. misrepresenting material facts to Plaintiffs Allen and Allen and the  
13 Illinois Subclass, in connection with the sale of goods and services,  
14 by representing that it would maintain adequate data privacy and  
15 security practices and procedures to safeguard Plaintiff’s and  
16 Illinois Subclass members’ PII from unauthorized disclosure,  
17 release, data breaches, and theft;
- 18 e. misrepresenting material facts to the class, in connection with sale  
19 of goods and services, by representing that Timios did and would  
20 comply with the requirements of relevant federal and state laws  
21 pertaining to the privacy and security of Plaintiffs’ and Illinois  
22 Subclass members’ PII; and
- 23 f. failing to take proper action following the Data Breach to enact  
24 adequate privacy and security measures and protect Plaintiffs’ and  
25 Illinois Subclass members’ PII from further unauthorized  
26 disclosure, release, data breaches and theft.

27 215. In addition, Timios failed to disclose that its computer systems were  
28 not well-protected and that Plaintiffs’ and Illinois Subclass members’ sensitive

1 information was vulnerable and susceptible to intrusion and cyberattacks  
2 constitutes deceptive and/or unfair acts or practices because Timios knew such  
3 facts would (a) be unknown to and not easily discoverable by Plaintiffs Allen and  
4 Allen and the Illinois Subclass; and (b) defeat Plaintiffs' and Illinois Subclass  
5 members' ordinary, foreseeable and reasonable expectations concerning the  
6 security of their PII on Timios's servers.

7         216. Timios intended that Plaintiffs Allen and Allen and the Illinois  
8 Subclass rely on its deceptive and unfair acts and practices, misrepresentations, and  
9 the concealment, suppression, and omission of material facts, in connection with  
10 Timios's offering of goods and services and storing Plaintiffs' and Illinois Subclass  
11 members' PII on its servers, in violation of the Illinois CFA.

12         217. Timios also engaged in unfair acts and practices by failing to maintain  
13 the privacy and security of Plaintiffs' and Illinois Subclass members' personal  
14 information, in violation of duties imposed by and public policies reflected in  
15 applicable federal and state laws, resulting in the data breach.

16         218. These unfair acts and practices violated duties imposed by laws  
17 including Section 5 of the Federal Trade Commission Act (15 U.S.C. § 45) and  
18 similar state laws.

19         219. Timios's wrongful practices occurred in the course of trade or  
20 commerce.

21         220. Timios's wrongful practices were and are injurious to the public  
22 interest because those practices were part of a generalized course of conduct on the  
23 part of Timios that applied to all Illinois Subclass members and were repeated  
24 continuously before and after Timios obtained PII from Plaintiffs Allen and Allen  
25 and Illinois Subclass members.

26         221. All Illinois Subclass members (including Plaintiffs Allen and Allen)  
27 have been adversely affected by Timios's conduct and the public was and is at risk  
28 as a result thereof.

1           222. Timios also violated 815 ILCS 505/2 by failing to immediately notify  
2 affected customers of the nature and extent of the Data Breach pursuant to the  
3 Illinois Personal Information Protection Act, 815 ILCS 530/1, et seq., which  
4 provides, at Section 10:

5           Notice of Breach.

6           Any data collector that owns or licenses personal information  
7 concerning an Illinois resident shall notify the resident at no charge that  
8 there has been a breach of the security of the system data following  
9 discovery or notification of the breach. The disclosure notification shall  
10 be made in the most expedient time to determine the scope of the breach  
and restore the reasonable integrity, security and confidentiality of the  
data system.

11           223. 815 ILCS 530/20 provides that a violation of 815 ILCS 530/10  
12 “constitutes an unlawful practice under the Consumer Fraud and Deceptive  
13 Business Practices Act.”

14           224. As a result of Timios’s wrongful conduct, Plaintiffs Allen and Allen  
15 and Illinois Subclass members were injured in that they never would have allowed  
16 their PII—the value of which Plaintiffs and Illinois Subclass members no long have  
17 control—to be provided to Timios if they had been told or knew that Timios failed  
18 to maintain sufficient security to keep such data from being hacked and taken by  
19 others.

20           225. Timios’s unfair and/or deceptive conduct proximately caused  
21 Plaintiffs’ and Illinois Subclass members’ injuries because, had Timios maintained  
22 customer PII with adequate security, Plaintiffs Allen and Allen and the Illinois  
23 Subclass members would not have lost it.

24           226. As a direct and proximate result of Timios’s conduct, Plaintiffs Allen  
25 and Allen and Illinois Subclass members have suffered harm, including, but not  
26 limited to, loss of time and money resolving fraud and fraudulent charges; loss of  
27 time and money obtaining protections against future identity theft; financial losses  
28 related to the purchase of education services from Timios that Plaintiffs and Illinois

1 Subclass members would have never made had they known of Timios’s careless  
2 approach to cybersecurity; lost control over the value of personal information;  
3 unreimbursed losses relating to fraud and fraudulent charges; losses relating to  
4 exceeding credit and debit card limits and balances; harm resulting from damaged  
5 credit scores and information; and other harm resulting from the unauthorized use  
6 or threat of unauthorized use of PII, entitling them to damages in an amount to be  
7 proven at trial.

8 227. Pursuant to 815 ILL. COMP. STAT. § 505/10a(a), Plaintiffs Allen and  
9 Allen seek actual, compensatory and punitive damages (pursuant to 815 ILL.  
10 COMP. STAT. § 505/10a(c)), injunctive relief, and court costs and attorneys’ fees  
11 as a result of Timios’s violations of the Illinois CFA.

12  
13 **COUNT VI**  
14 **VIOLATIONS OF ILLINOIS’ PERSONAL INFORMATION**  
15 **PROTECTION ACT**  
16 **815 ILCS 530, *et seq.***  
17 **(On Behalf of Plaintiffs Allen And Allen and Illinois Subclass Members)**

18 228. Plaintiffs restate and reallege the foregoing Paragraphs 1 through 140  
19 as if fully set forth herein.

20 229. Plaintiffs Allen and Allen bring this claim on behalf of themselves and  
21 the Illinois Subclass.

22 230. Defendant failed to implement and maintain reasonable security  
23 procedures and practices appropriate to the nature and scope of the information  
24 compromised in the Data Breach.

25 231. Section 45 of the Illinois’s Personal Information Protection Act  
26 requires entities who maintain or store “personal information concerning an Illinois  
27 resident” to “implement and maintain reasonable security measures to protect those  
28 records from unauthorized access, acquisition, destruction, use, modification, or  
disclosure.”

1 232. Defendant’s conduct violated the Personal Information  
2 Protection Act.

3 233. Specifically, Defendant voluntarily undertook the act of maintaining  
4 and storing Plaintiffs’ PII but Defendant failed to implement safety and security  
5 procedures and practices sufficient enough to protect from the data breach that it  
6 should have anticipated. Defendant should have known and anticipated that data  
7 breaches were on the rise, and that financial services institutions were lucrative or  
8 likely targets of cybercriminals looking to steal PII. Correspondingly, Defendant  
9 should have implemented and maintained procedures and practices appropriate to  
10 the nature and scope of information compromised in the data breach.

11 234. As a result of Defendant’s violation of the Personal Information  
12 Protection Act, Plaintiffs Allen and Allen and the Illinois Subclass Members  
13 incurred economic damages, including expenses associated with necessary credit  
14 monitoring.

15 **COUNT VII**  
16 **VIOLATIONS OF ILLINOIS’ SECURITY BREACH**  
17 **NOTIFICATION LAWS,**  
18 **815 ILCS 530/10**

19 **(On Behalf of Plaintiffs Allen and Allen and Illinois Subclass Members)**

20 235. Plaintiffs restate and reallege the foregoing Paragraphs 1 through 140  
21 as if fully set forth herein.

22 236. Plaintiffs Allen and Allen bring this claim on behalf of themselves and  
23 the Illinois Subclass.

24 237. Defendant’s conduct violated 815 ILCS 530/10, which requires  
25 entities to notify individuals “in the most expedient time possible and without  
26 unreasonable delay” in the event of a data breach.

27 238. The massive data breach occurred on or around July 19, 2021,  
28 however, notice of the data breach was not sent to Plaintiffs Allen and Allen and  
the Illinois Subclass Members until October 8, 2021.

1           239. Defendant unreasonably delayed informing anyone about the breach  
2 of security of Plaintiffs Allen and Allen and the Illinois Subclass Members’  
3 confidential and non-public information after Defendant knew the Data Breach had  
4 occurred.

5           240. Defendant failed to disclose to Plaintiffs or the Class Members,  
6 without unreasonable delay, and in the most expedient time possible, the breach of  
7 security of their unencrypted—or not properly and securely encrypted—PII when  
8 it knew or reasonably believed such information had been compromised.

9           241. As a result of Defendant’s violation of 815 ILCS 530/10, Plaintiffs  
10 Allen and Allen and the Illinois Subclass Members incurred economic damages,  
11 including expenses associated with necessary credit monitoring.

12  
13                                   **COUNT VIII**  
14                                   **UNJUST ENRICHMENT**  
15                                   **(On Behalf of Plaintiffs and the Subclasses)**

16           242. Plaintiffs restate and reallege the foregoing Paragraphs 1 through 140  
17 as if fully set forth herein.

18           243. This count is plead in the alternative to Count III (breach of implied  
19 contract).

20           244. Plaintiffs and Class Members conferred a monetary benefit on  
21 Defendant, by paying Defendant money, a portion of which was to have been used  
22 for data security measures to secure Plaintiffs’ and Subclass Members’ PII, and by  
23 providing Defendant with their valuable PII.

24           245. Defendant enriched itself by saving the costs it reasonably should have  
25 expended on data security measures to secure Plaintiffs’ and Subclass Members’  
26 PII. Instead of providing a reasonable level of security that would have prevented  
27 the Data Breach, Defendant instead calculated to avoid their data security  
28 obligations at the expense of Plaintiffs and Subclass Members by utilizing cheaper,  
ineffective security measures. Plaintiffs and Subclass Members, on the other hand,

1 suffered as a direct and proximate result of Defendant's failure to provide the  
2 requisite security.

3 246. Under the principles of equity and good conscience, Defendant should  
4 not be permitted to retain the money belonging to Plaintiffs and Subclass Members,  
5 because Defendant failed to implement appropriate data management and security  
6 measures that are mandated by industry standards.

7 247. Defendant acquired the monetary benefit and PII through inequitable  
8 means in that it failed to disclose the inadequate security practices previously  
9 alleged.

10 248. If Plaintiffs and Subclass Members knew that Defendant had not  
11 secured their PII, they would not have agreed to provide their PII to Defendant.

12 249. Plaintiffs and Subclass Members have no adequate remedy at law.

13 250. As a direct and proximate result of Defendant's conduct, Plaintiffs and  
14 Subclass Members have suffered and will suffer injury, including but not limited  
15 to: (i) actual identity theft; (ii) the loss of the opportunity how their PII is used; (iii)  
16 the compromise, publication, and/or theft of their PII; (iv) out-of-pocket expenses  
17 associated with the prevention, detection, and recovery from identity theft, and/or  
18 unauthorized use of their PII; (v) lost opportunity costs associated with effort  
19 expended and the loss of productivity addressing and attempting to mitigate the  
20 actual and future consequences of the Data Breach, including but not limited to  
21 efforts spent researching how to prevent, detect, contest, and recover from identity  
22 theft; (vi) the continued risk to their PII, which remain in Defendant's possession  
23 and is subject to further unauthorized disclosures so long as Defendant fails to  
24 undertake appropriate and adequate measures to protect PII in their continued  
25 possession; and (vii) future costs in terms of time, effort, and money that will be  
26 expended to prevent, detect, contest, and repair the impact of the PII compromised  
27 as a result of the Data Breach for the remainder of the lives of Plaintiffs and  
28 Subclass Members.

1 251. As a direct and proximate result of Defendant's conduct, Plaintiffs and  
2 Subclass Members have suffered and will continue to suffer other forms of injury  
3 and/or harm.

4 252. Defendant should be compelled to disgorge into a common fund or  
5 constructive trust, for the benefit of Plaintiffs and Subclass Members, proceeds that  
6 they unjustly received from them. In the alternative, Defendant should be  
7 compelled to refund the amounts that Plaintiffs and Subclass Members overpaid  
8 for Defendant's services.

9  
10 **COUNT IX**

11 **Declaratory Judgment**

12 **(On Behalf of Plaintiffs and the Nationwide Class, or in the alternative,  
13 on behalf of the Subclass)**

14 253. Plaintiffs restate and reallege all of the foregoing Paragraphs as if fully  
15 set forth herein.

16 254. This Count is brought under the federal Declaratory Judgment Act, 28  
17 U.S.C. §2201.

18 255. Plaintiffs and Class Members entered into an implied contract that  
19 required Defendant to provide adequate security for the PII it collected from  
20 Plaintiffs and Class Members.

21 256. Defendant owes a duty of care to Plaintiffs and Class Members  
22 requiring them to adequately secure PII.

23 257. Defendant still possesses PII regarding Plaintiffs and Class Members.

24 258. Since the Data Breach, Defendant has announced few if any specific  
25 and significant changes to its data security infrastructure, processes or procedures  
26 to fix the vulnerabilities in its computer systems and/or security practices which  
27 permitted the Data Breach to occur and, thereby, prevent further attacks.

28 259. Defendant has not satisfied its contractual obligations and legal duties  
to Plaintiffs and Class Members. In fact, now that Defendant's insufficient data

1 security is known to hackers, the PII in Defendant's possession is even more  
2 vulnerable to cyberattack.

3 260. Actual harm has arisen in the wake of the Data Breach regarding  
4 Defendant's contractual obligations and duties of care to provide security measures  
5 to Plaintiffs and Class Members. Further, Plaintiffs and Class Members are at risk  
6 of additional or further harm due to the exposure of their PII and Defendant's  
7 failure to address the security failings that lead to such exposure.

8 261. There is no reason to believe that Defendant's security measures are  
9 any more adequate now than they were before the Data Breach to meet Defendant's  
10 contractual obligations and legal duties.

11 262. Plaintiffs, therefore, seek a declaration (1) that Defendant's existing  
12 security measures do not comply with their contractual obligations and duties of  
13 care to provide adequate security, and (2) that to comply with their contractual  
14 obligations and duties of care, Defendant must implement and maintain reasonable  
15 security measures, including, but not limited to, the following:

- 16 a. Ordering that Defendant engage third-party security  
17 auditors/penetration testers as well as internal security personnel to  
18 conduct testing, including simulated attacks, penetration tests, and  
19 audits on Defendants' systems on a periodic basis, and ordering  
20 Defendant to promptly correct any problems or issues detected by  
21 such third-party security auditors;
- 22 b. Ordering that Defendant engage third-party security auditors and  
23 internal personnel to run automated security monitoring;
- 24 c. Ordering that Defendant audit, test, and train its security personnel  
25 regarding any new or modified procedures;
- 26 d. Ordering that Defendant segment customer data by, among other  
27 things, creating firewalls and access controls so that if one area of  
28

1 Defendant’s systems is compromised, hackers cannot gain access  
2 to other portions of Defendant’s systems;

- 3 e. Ordering that Defendant not transmit PII via unencrypted email;
- 4 f. Ordering that Defendant not store PII in email accounts;
- 5 g. Ordering that Defendant purge, delete, and destroy in a reasonably  
6 secure manner customer data not necessary for its provisions of  
7 services;
- 8 h. Ordering that Defendant conduct regular computer system scanning  
9 and security checks;
- 10 i. Ordering that Defendant routinely and continually conduct internal  
11 training and education to inform internal security personnel how to  
12 identify and contain a breach when it occurs and what to do in  
13 response to a breach; and
- 14 j. Ordering Defendant to meaningfully educate their current, former,  
15 and prospective customers about the threats they face as a result of  
16 the loss of their PII to third parties, as well as the steps they must  
17 take to protect themselves.

18 **PRAYER FOR RELIEF**

19 **WHEREFORE**, Plaintiffs, on behalf of themselves and all Class Members,  
20 requests judgment against the Timios and that the Court grant the following:

- 21 A. For an Order certifying the Nationwide Classes or, in the alternative,  
22 the Subclass as defined herein, and appointing Plaintiffs and their  
23 Counsel to represent the certified Classes;
- 24 B. For equitable relief enjoining Timios from engaging in the wrongful  
25 conduct complained of herein pertaining to the misuse and/or  
26 disclosure of Plaintiffs’ and the Class Members’ PII, and from  
27 refusing to issue prompt, complete, any accurate disclosures to the  
28

1 Plaintiffs and Class members;

2 C. For injunctive relief requested by Plaintiffs, including but not limited  
3 to, injunctive and other equitable relief as is necessary to protect the  
4 interests of Plaintiffs and class members, including but not limited to  
5 an order:

- 6 i. prohibiting Timios from engaging in the wrongful and unlawful  
7 acts described herein;
- 8 ii. requiring Timios to protect, including through encryption, all data  
9 collected through the course of its business in accordance with all  
10 applicable regulations, industry standards, and federal, state or  
11 local laws;
- 12 iii. requiring Timios to delete, destroy, and purge the personal  
13 identifying information of Plaintiffs and class members unless  
14 Timios can provide to the Court reasonable justification for the  
15 retention and use of such information when weighed against the  
16 privacy interests of Plaintiffs and class members;
- 17 iv. requiring Timios to implement and maintain a comprehensive  
18 Information Security Program designed to protect the  
19 confidentiality and integrity of the personal identifying  
20 information of Plaintiffs and class members' personal identifying  
21 information;
- 22 v. prohibiting Timios from maintaining Plaintiffs' and class  
23 members' personal identifying information on a cloud-based  
24 database;
- 25 vi. requiring Timios to engage independent third-party security  
26 auditors/penetration testers as well as internal security personnel to  
27 conduct testing, including simulated attacks, penetration tests, and  
28 audits on Timios's systems on a periodic basis, and ordering

1 Timios to promptly correct any problems or issues detected by such  
2 third-party security auditors;

3 vii. requiring Timios to engage independent third-party security  
4 auditors and internal personnel to run automated security  
5 monitoring;

6 viii. requiring Timios to audit, test, and train its security personnel  
7 regarding any new or modified procedures;

8 ix. requiring Timios to segment data by, among other things, creating  
9 firewalls and access controls so that if one area of Timios's  
10 network is compromised, hackers cannot gain access to other  
11 portions of Timios's systems;

12 x. requiring Timios to conduct regular database scanning and  
13 securing checks;

14 xi. requiring Timios to establish an information security training  
15 program that includes at least annual information security training  
16 for all employees, with additional training to be provided as  
17 appropriate based upon the employees' respective responsibilities  
18 with handling personal identifying information, as well as  
19 protecting the personal identifying information of Plaintiffs and  
20 class members;

21 xii. requiring Timios to conduct internal training and education  
22 routinely and continually, and on an annual basis to inform internal  
23 security personnel how to identify and contain a breach when it  
24 occurs and what to do in response to a breach;

25 xiii. requiring Timios to implement a system of tests to assess its  
26 respective employees' knowledge of the education programs  
27 discussed in the preceding subparagraphs, as well as randomly and  
28 periodically testing employees' compliance with Timios's policies,

1 programs, and systems for protecting personal identifying  
2 information;

3 xiv. requiring Timios to implement, maintain, regularly review, and  
4 revise as necessary a threat management program designed to  
5 appropriately monitor Timios's information networks for threats,  
6 both internal and external, and assess whether monitoring tools are  
7 appropriately configured, tested, and updated;

8 xv. requiring Timios to meaningfully educate all class members about  
9 the threats that they face as a result of the loss of their confidential  
10 personal identifying information to third parties, as well as the  
11 steps affected individuals must take to protect themselves;

12 xvi. requiring Timios to implement logging and monitoring programs  
13 sufficient to track traffic to and from Timios's servers; and

14 xvii. for a period of 10 years, appointing a qualified and independent  
15 third party assessor to conduct a SOC 2 Type 2 attestation on an  
16 annual basis to evaluate Timios's compliance with the terms of the  
17 Court's final judgment, to provide such report to the Court and to  
18 counsel for the class, and to report any deficiencies with  
19 compliance of the Court's final judgment; and

20 D. For an award of damages, including actual, statutory, nominal, and  
21 consequential damages, as allowed by law in an amount to be  
22 determined;

23 E. For an award of punitive damages;

24 F. For an award of attorneys' fees, costs, and litigation expenses, as  
25 allowed by law;

26 G. For prejudgment interest on all amounts awarded; and

27 H. Such other and further relief as this Court may deem just and proper.  
28

1 **DEMAND FOR JURY TRIAL**

2 Plaintiffs hereby demand that this matter be tried before a jury.

3  
4 Date: November 3, 2021

Respectfully Submitted,

5 /s/ M. Anderson Berry
